A Conversation with Ben Higgins

Looking for **Ben Higgins**? Often you'll find him out on the Ranch rather than in his office. Here he discovers a small section of fencing that needs repair ... a continual challenge! We caught up with Ben recently and asked if he'd do us the honor of giving us more of an insight into what it takes to handle the Ranch, what goes on out there, his role as Director of Agricultural Operations for the Hearst Corporation, and anything else he'd like to share. Questions welcomed!
